

PLEASE keep the weather and traffic my xm satellite radio. I find this service absolutely invaluable. I have an hour commute in the Phoenix, AZ area and I always listen as soon as I get in my car so I know the best route to take. I think this is one of the best things offered by xm. There is NO reason that this should be discontinued for any reason. It is the safest, fastest and easiest way to get the info I need when I need it!!!
Sincerely,

Cheryl Lovetro - XM subscriber
